ABOUT US

Affiliated to Chhattisgarh Swami Vivekanand Technical University, Bhilai Approved by AICTE, New Delhi

Affiliated to Chhattisgarh Swami Vivekanand Technical University(CSVTU), Bhilai. Approved by All India Council for Technical Education(AICTE), New Delhi Situated in the heart of the Capital city of Chhattisgarh,SSIPMT, Raipur became an insignia amongst the technical institutions in Central India. We are the only institute in the region & among the only 49 institutes across the country that have been selected for AICTE IDEA Lab 2021 that provides students with a platform to explore innovative ideas, create prototypes, and collaborate with peers and experts to bring their ideas to life. With highest admissions amongst private institutes in this region, excellent placements, 37+ patents, and 8+ start-ups, we are proud to have established ourselves as one of the leading private institutes in Central India. Our college has been accredited by both NAAC and NBA, demonstrating our high standards of academic quality and infrastructure. Additionally, we have received a 4-star rating from IIC, highlighting our strong culture of innovation and entrepreneurship. We are also proud to have achieved a B-Band ranking from ARIIA, which recognizes our efforts in promoting research and industry collaborations. These accolades are just a few of the feathers in our crown, and we continue to strive for excellence in all that we do.

To be a premier technical institute in the country that imparts innovation-driven education to nurture value-based competent future professionals.

ABOUT MANAGEMENT

Shri I.P. Mishra
B.E. (Hons.) (Mechanical)
Ex-GM, Bhilai Steel Plant
Chairman, SGES

The President of the society - Shri I.P. Mishra is an eminent technocrat and a distinguished educationist of the state. He has been the lighthouse in the development of Technical Education in the state. His relentless efforts in the field of higher education have brought rich laurels & have helped establish private Engineering Institutes in the state.

“A good institute is your passage to a bright future”

Nishant Tripathi
B.E. (Civil)
Chairman (BG)SSIPMT, Raipur
Secretary, SGES

He is the man on a mission. His indomitable spirit to contribute to nation building reflects in everything he does. Under his able leadership, SSIPMT, Raipur has fast been spearheading towards the pinnacle of success. He has an immense focus on quality education & making students industry-ready. His advice to the youth is to wake-up & abide by the words of Swami Vivekanandji:

“Arise, Awake & Stop not till goal is reached”

Gurinder Pal Singh
MBA (IIM Ahmedabad)
Member, Governing Body,
SSIPMT, Raipur

He comes with over 25 years of experience working with India's top IT organisations at various leadership roles and has been on the advisory board of various Universities/ Prestigious Institutes in India and USA. He has been a pioneer in setting up Centers of Excellence and Incubation Centers in various academic institutes, which have resulted in industry-ready human capital for the organisations, besides creating successful entrepreneurs.

“SSIPMT's motive is to convert “Pathshala to Prayogshala”

The institute will focus on producing competent future professionals by:

- ◆ Partnering and collaborating with industry and government in producing new knowledge and addressing socially relevant problems.
- ◆ Creating infrastructure and good practices that foster innovation-based education.
- ◆ Providing experiences that lead students becoming good engineers.

- ▶ Strength
- ▶ Truth
- ▶ Unity
- ▶ Excellence
- ▶ Network
- ▶ Team Work

B.Tech.-CSE : Intake : 180+60* | M.Tech. - AI & ML (Intake : 30)
IT : Intake : 60

The primary goal of these departments is to provide the best IT infrastructure, world-class learning & research environment, adopt industry practices through industry collaborations and inculcate moral and ethical values. **The CSE department is accredited by NBA.**

Both Departments are committed to producing top-notch professionals equipped with cutting-edge technology and a deep understanding of fundamental concepts and advanced research in emerging fields such as **Artificial Intelligence, Data Science, Computer Graphics, Virtual Reality, Data Mining, and the Internet of Things**. In addition to the university syllabus, the department provides **industry-oriented content in collaboration with leading companies such as NVIDIA, GeeksforGeeks, Intel, and GitHub**. Regular classes are conducted for **Aptitude, Reasoning, and Competitive Programming to prepare students for Software Engineers, Data Scientists, Data Analysts, Product Analysts, Machine Learning Engineers, Artificial Intelligence Engineers, Application Developers, and Entrepreneurs**. The Department's dedicated faculty and well-established research center provide ample opportunities for critical thinking and research in the most demanding technologies.

Encouraging Stats : We have almost 100% placements from the last 3 years.

Civil Engineering is concerned with designing, constructing, and maintaining the natural and man-made environment to facilitate a country's infrastructure development. **In Chhattisgarh, our students have landed the maximum number of posts in the government sector.** We produce industry-ready engineers by offering student development programs on **modern field practices, cutting-edge research, and development, as well as bridge courses on metro engineering, advanced structural design,** etc.

The department has **state-of-the-art laboratories** carrying out various research and consultancy work. Add-on training on the latest design and analysis software like **Revit, ETABS, MIDAS, STAAD PRO,** and additional courses on **technical skills, aptitude, and reasoning** are provided to make students top-notch professionals. **Site visits, expert lectures, workshops, and conferences** are organized regularly. All these efforts led our students to stand in enormous internship & placement opportunities available in the current market.

The Department of Mechanical Engineering offers the best of experiential learning to students in the domains of **design, thermal, and production engineering** along with recent multidisciplinary cutting-edge technologies.

The students are taught and trained about **engines, automobiles, power plants, manufacturing processes, and design of machine components using AutoCAD, Ansys, CATIA, Fusion 360, and SolidWorks** by highly qualified and experienced faculty, researchers, and tech gurus from academia and industry. Department has a well-established pedagogy, **state-of-the-art infrastructure, well-equipped laboratories, and offers 'teaching beyond curriculum' by training in Arduino, Sensors, Motors, Coding, and Programming Languages.**

The department associates students with the best in sector industries having signed with them a MoU. **Students visit industries, are offered training and internships, participate in National Level Competitions like Smart India Hackathon (SIH) and emerge as winners. Students of the department own Startups,** catering to the needs of society **in the field of electric vehicles.** All this helps the students to develop themselves as industry-ready professionals capable of earning the best placements.

Electronics acts as a bridge between core mechanical products and modern Automatic hybrid products. Our faculties along with the students have achieved remarkable and useful **patents and published papers** in National and International Journals. **The Department of Electronics has a total of 7 patents.** We encourage students to work on the idea and then facilitate them to convert the idea into reality.

We intend to develop the skill and technical understanding of the students so they can nurture and become entrepreneurs forming **technology-based startups**. To make them Industry ready ET&T has formed associations **with Semiconductor companies like IESA, Blueberry Semiconductors, Tessolve Semiconductors, etc.** With their **incubation chambers and center of excellence established on the campus**, we are in a position to provide semiconductor jobs to the students. We educate our students on technologies like **VLSI, ADLD, ADLV, etc.**

All eligible students are placed not only in good IT Companies but also in Core Semiconductor Companies. We also regularly placed ourselves in the **top 3 positions in university results.**

MBA Program at SSIPMT Raipur equips students with the knowledge, skills, and competencies to become effective leaders in the business world. The program offers a comprehensive and in-depth understanding of various aspects of business such as **Finance, Accounting, Marketing Management, Human Resources, Production Management, and Entrepreneurship**. The department contemplates the “teaching beyond syllabus” furthermore it offers experiential learning opportunities such as **internships, case studies, certification programs, simulations, research projects**, etc.

The department organizes **Campus Recruitment Training, Mock Group discussions, Interview Sessions, and Stipulated Personality Development programs** to enhance the student's overall professional effectiveness, leading to better career opportunities in the business world. The department conducts various **workshops and networking events** to bring together students, industry experts, and academicians.

Only 49 institutes nationwide have been chosen for the AICTE IDEA (Idea, Development, Evaluation & Application) Labs 2021, and ours is one of them. The IDEA Lab reinvents **technical education by arming budding innovators with the most recent tools, techniques, and knowledge**. Our institute IDEA lab is the country's first AICTE Idea Lab.

Aerial robotics is our area of expertise. We specialize in the production and training of all varieties of drones and aero modelling. Additionally, we provide students with countless opportunities to learn using tools like **3D printing, Sublimation printing, CNC laser router, PCB designing, Machine hand tools, Arduino, Raspberry Pi, IoT, and more.**

IDEA Lab Gurus provides training to students early in their first semester. The lab is accessible to students 24x7. **Numerous hackathons, tech-fest, and competitions across the nation have been won by our trained students from SSIPMT.** By concentrating on practices in education, research, and training, we are transforming untrained minds into professionals.
